

Countries and territories with recent local Zika virus transmission 16/12/2016

Countries	Region	Last case since 3 months
American Samoa		Widespread transmission
Anguilla		Widespread transmission
Antigua and Barbuda		Widespread transmission
Aruba		Widespread transmission
Bahamas		Widespread transmission
Barbados		Widespread transmission
Belize		Widespread transmission
Bolivia		Widespread transmission
Bonaire		Widespread transmission
Brazil		Widespread transmission
British Virgin Islands (UK)		Widespread transmission
Cayman Islands		Widespread transmission
Colombia		Widespread transmission
Costa Rica		Widespread transmission
Cuba		Widespread transmission
Curaçao		Widespread transmission
Dominica		Widespread transmission
Dominican Republic		Widespread transmission
Ecuador		Widespread transmission
El Salvador		Widespread transmission
Fiji		Widespread transmission
French Guiana		Widespread transmission
Grenada		Widespread transmission
Guadeloupe		Widespread transmission
Guatemala		Widespread transmission
Guyana		Widespread transmission
Haiti		Widespread transmission
Honduras		Widespread transmission
Jamaica		Widespread transmission
Malaysia		Widespread transmission
Maldives		Sporadic transmission
Martinique		Widespread transmission
Mexico		Widespread transmission
Micronesia, Federated States of		Widespread transmission
Montserrat		Sporadic transmission
Nicaragua		Widespread transmission
Palau		Sporadic transmission
Panama		Widespread transmission
Paraguay		Widespread transmission
Peru		Widespread transmission
Philippines		Widespread transmission
Puerto Rico		Widespread transmission
Saint Kitts and Nevis		Widespread transmission
Saint Lucia		Widespread transmission
Saint Martin		Widespread transmission
Saint-Barthélemy		Widespread transmission
Saint Vincent and the Grenadines		Widespread transmission
Singapore		Widespread transmission
Sint Maarten		Widespread transmission
Suriname		Widespread transmission
Thailand		Widespread transmission

Trinidad and Tobago		Widespread transmission
Turks and Caicos		Widespread transmission
United States of America	Miami-Dade	Widespread transmission
United States of America	Cameron County	Sporadic transmission
US Virgin Islands		Widespread transmission
Venezuela		Widespread transmission
Vietnam		Widespread transmission

The classification of countries above is based on: 1) number of reported autochthonous confirmed cases; 2) number of countries who report a zika virus transmission or a country's transmission status changes; 3) duration of the circulation.
